

# INDEX

## A

Abscissa, 180  
Accuracy, 206  
Acute angle, 173  
Acute triangle, 174  
Adjacent angle, 174  
Amplitudes, 6, 144, 235  
Angle, 173  
Angular length, 181  
Angular measure, 181  
Azimuth angle (Z), 235

## B

Biquadrantal spherical triangle, 189  
Bisects, 174

## C

Calculations of meteorology, 236  
Calculations of piloting, 233  
Calculations of the sailings, 235  
Calculators in navigation, 233  
Cartesian coordinates, 180  
Centesimal degrees, 181  
Centesimal system, 181  
Central angle, 176  
Centroid, 174  
Chord, 176  
Circles, 176  
Circumference, 176  
Circumscribed circle, 174  
Common tangent, 176  
Complementary angle, 173  
Computed altitude (hc), 235  
Concentric, 176  
Congruent, 175  
Coordinates, 180

## D

Degrees, 181

Diameter, 176  
Dihedral angle, 174  
Dip correction, 234  
Dip of the sea short of the horizon, 234  
Distance by vertical angle, 234  
Distance to the radar horizon, 234  
Distance to the visible horizon, 234

## E

Equiangular, 174  
Equilateral triangle, 174  
Explement, 173  
Exterior angle, 175

## F

Fetch, 237  
Fundamental identities, 187

## G

Geodesy, 346  
Geometry, 173  
Great circle, 179

## H

Hull speed in knots, 233  
Hypotenuse, 174

## I

Inscribed angle, 176  
Inscribed circle, 174  
Interior angle, 175  
Inverse trigonometric functions, 187  
Isosceles triangle, 174

## L

Latitude of the vertex, 236  
Latitudes of points on the great-circle track, 236  
Length of sea waves, 237

Line, 173  
 Logarithmic function, 183  
 Lune, 180

**M**

Median, 174  
 Mercator sailing, 236  
 Mid-latitude sailing, 235  
 Mistake, 205

**N**

Napier's Rules, 188  
 Natural function, 183  
 Nautical miles, 3  
 Navigation calculations, 233

**O**

Oblique angle, 173  
 Oblique coordinates, 180  
 Oblique plane triangles, 187  
 Oblique spherical triangles, 189  
 Oblique triangle, 174  
 Obtuse angle, 173  
 Obtuse triangle, 174  
 Oceanography calculations, 236  
 Octant, 176  
 Ordinate, 180  
 Origin, 180

**P**

Parallel lines, 173  
 Parallel sailing, 235  
 Perimeter, 176  
 Perpendicular lines, 173  
 Plane geometry, 173  
 Plane sailing, 235  
 Plane surface, 173  
 Plane triangle, 174  
 Plane trigonometry, 181  
 Plane, 173  
 Point of tangency, 176  
 Point, 173  
 Polar coordinates, 180  
 Poles, 179  
 Precision, 206  
 Primary, 179

**Q**

Quadrantal spherical triangle, 189  
 Quintant, 176

**R**

Radian, 181  
 Radius of a sphere, 179  
 Radius vector, 180  
 Random errors, 207  
 Rectangular coordinates, 180  
 Reflex angle, 173  
 Right angle, 173  
 Right line, 173  
 Right plane triangles, 187  
 Right spherical triangles, 189  
 Right triangle, 174

**S**

Scalene triangle, 174  
 Secant, 176  
 Sector, 176  
 Segment, 176  
 Semi-circle, 176  
 Semidiameter of a sphere, 179  
 Semidiameter, 176  
 Sexagesimal system, 181  
 Sextant, 176  
 Small circle, 179  
 Solid geometry, 173  
 Space coordinates, 181  
 Speed of a vessel, 233  
 Sphere, 179  
 Spherical coordinates, 180  
 Spherical triangle, 179  
 Straight angle, 173  
 Straight line, 173  
 Supplement, 173  
 Supplementary angle, 173  
 Systematic errors, 206

**T**

Tangent, 176  
 Tide calculations, 234  
 Transversal, 174  
 Traverse sailing, 235  
 Triangles, 174

Trigonometric functions, 181  
Trigonometric identity, 186  
Trigonometry, 181  
Triquadrantal spherical triangle, 189

**V**

Vertex, 173

Vertical angle, 174  
Vertices, 174

**W**

Wave height, 237  
Wave speed, 237
